There are more than 500 games to choose from and most of them are available in play for fun mode

No deposit and withdrawal fee

On our sites it is free to deposit or make withdrawals – no fee. Many of our competitors are charging the players a fee for this. But we think this is wrong – you don't pay more for your groceries in the local supermarket either.

Play more games at the same time

The players can play up to 4 slots at the same time. If this option is selected the screen is split up so the player can see all the games at the same time.

Ingame deposit

We have made it easy for the player to deposit whilst playing without having to leave the current game. The function "In game deposit" is available for all slots.

Easy to find one's favorite game

Furthermore, we have a Favorite function for the players so they can add their favorite games to a list – this way the games are easy to find again.

Welcome campaign and exciting campaigns EVERY month

Von BingoSjov.dk all new players get 100 free spins on the popular NetEnt game Starburst + 200% bonus on their first deposit up to 1.000 DKK bonus.

The best VIP and customer support in Denmark

We have a completely unique and personal approach to our players compared to other casinos. We believe in personal contact rather than only email. Our customers are then able to contact us by phone (many of our competitors don't have this option), Live chat and email.

This has resulted in a very personal relationship to our players and many players call us to share good and bad events in their life – not necessary related to gambling. All requests are answered within 1 hour during our opening hours and always within 24 hours.

Loyalty points

Players are earning points every time a bet is placed. The points can be converted into cash. This way we reward all our players but the ones who are the most loyal and play the most gets rewarded the most. This we believe is a fair approach.

User-friendly mobile site

All 3 sites is of course available on mobile.
